

SPORTS

Recover • Rest • Re-energize

Aquaroll® is quickly becoming an essential tool for athletic trainers in the NFL, MLB, NBA, NHL, FIFA and others.

This disruptive modality may be administered pre-event or post-event, during recovery, during a maintenance period, or when an athlete suffers an injury that requires rehabilitation.

Aquaroll® treatment is consistent, regardless of location, user and therapist.

Aquaroll® provides therapists with a diverse portfolio of options when determining the best way to approach athlete challenges. This unique therapy can be used as:

- a pre-workout warm-up
- a post-workout recovery mechanism
- an injury prevention tool
- a supplement to post-surgical rehabilitation
- a supplement to post-fracture rehabilitation
- a supplement to / replacement for prescription drugs
- a non-operative management tool
- a pre-surgery treatment
- an acute injury treatment
- a tool for the reduction of / proper formation of scar tissue
- a long-term pain management system

The broad list of orthopaedic and therapeutic indications include:

- carpal tunnel syndrome
- tendinitis, including Achilles tendinitis
- plantar fasciitis
- turf toe
- wrist synovitis
- overuse syndromes
- post-surgical rehabilitation
- post-fracture rehabilitation
- lymphedema / swelling in hands and feet
- arthritis
- ligament sprains
- muscle strains
- joint stiffness / decreased range of motion
- scar tissue reduction
- nerve injuries / damage
